Note: The progress of the lessons depends on the level of the students inside the class.

WHAT CAN I LEARN?

The student will learn new vocabulary and collocations frequently used when talking about technology. He/she will be able to practice identifying important details as he/she continues to improve his/her note-taking skills. He/She will be able to use abbreviations while listening as well. He/she can review his/her knowledge about action and nonaction verbs and use these to clearly explain his/her thoughts about certain topics. Moreover, he/she can enhance his/her speaking skills by learning how to stress the content words. Improving presentation skills using the conversational topics are also provided to equip the student with the proper techniques and motivation during presentations.
