WHAT CAN I LEARN?

The student will learn about phrasal verbs and the use of word stress during speaking. These are very common in conversations and using them correctly will help the student sound more natural as he/she sends his/her message across. For the next unit, the student will be able to create and organize his/her thoughts using a word web while highlighting the main idea and its supporting details. In addition, the activity that he/she will do will let him/her expand his/her ideas and help him/her develop his/her spontaneity and confidence. Finally, the student will also be able to differentiate *Used to* from *Would* and let him/her share his/her experiences using these modals in meaningful sentences.
